

## **Tutorial pentru instalarea si configurarea Smard Cardului obtinut in prealabil de la Oiciul European de Brevete.**

Smart Cardul se obtine completand un formular, obtinut la adresa:

<http://nrm2.epoline.org/myepoline/pcf/mainMenu.html>

Driverule pentru smart card, le gasiti la adresa de mai jos, tinand cont de arhitectura sistemului de operare (32 biti sau 64 biti) si de versiunea de Windows (Windows 10, 8, 7, Vista, Windows 2008).

<https://www.epo.org/applying/online-services/security.html> (Sectiunea Smart card reader)

La descarcare, vă va cere un username si o parola, credentialele sunt mai jos:

User name: epo36

Password: axess13

Dupa instalarea driverelor (Gemplus GemPCTWIN si Gemalto Classic Client) trebuie sa reporniti calculatorul, apoi trebuie sa activati smart cardul.

Pentru a putea depune electronic online, trebuie sa aveti smart cardul activat, altfel depunerea electronica online nu va functiona (vă va apărea mesajul: "Acces is Denied") la trimiterea cererii folosind programul Online Filing.

In functie de sistemul de operare folosit (Windows 8 / Windows 10), activarea smart cardului se va realiza in felul urmator:

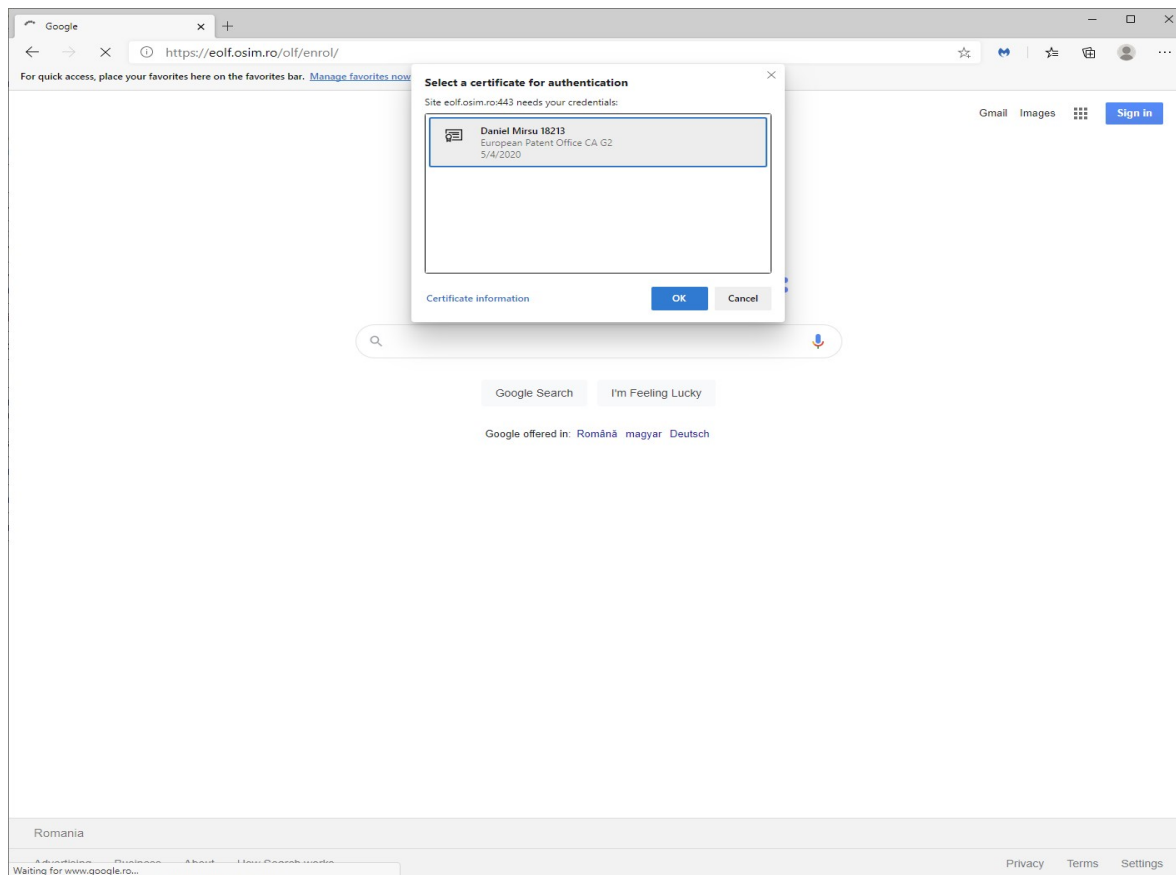

**Atentie! Trebuie sa aveti Smart Cardul conectat pe USB la calculator iar cardul sa fie introdus corect in cititor.**

Pentru utilizatorii care folosesc Windows 8 sau 10 cu ultimele update-uri, inregistrarea smart cardului se va realiza **in functie de browserul ales.**

**Pentru browserul Internet Explorer/Microsoft Edge, se va accesa link-ul:**

<https://eolf.osim.ro/olf/enrol/>

Dupa accesare daca pasii de mai sus au fost facuti in mod corect, vă va apare o fereastră in care trebuie sa dati click pe ok pentru selectarea certificatului dvs, similar ca in poza de mai jos:

Apoi vă va cere codul PIN al smart cardului. Codul PIN il primiti conform conditiilor EPO, ori pe e-mail ori insotit de smart cardul aflat in plic.

Dupa ce introduceti codul PIN, dati click pe ok si apoi se va deschide in mod automat formularul de inregistrare pe care trebuie sa-l completati cu datele dumneavoastra.

**ATENTIE! Daca introduceti de 3 ori codul gresit, smart cardul se va bloca automat!**

The screenshot shows a web browser window with the URL <https://eolf.osim.ro/olf/enrol/>. The page header features the OSIM logo and the text "Oficiul de Stat pentru Invenții și Mărci, România" and "State Office for Inventions and Trademarks, Romania". Below the header, there is a section titled "Status of your certificate (Daniel Mirsu 18213)" which states: "The registered certificate is valid from 04-05-2020 03:00 to 05-05-2025 02:59", "Production filings allowed: Yes", and "Demo filings allowed: Yes". The main part of the form is titled "User Details" and "Contact Details". It includes fields for "First name:", "Last name:", "Phone number:", "E-Mail address:", "Company name:", and "Address details:". There are also radio buttons for "Business" (selected) and "Private". Below these fields, there is a section titled "Please indicate who will be the main contact person for electronic filing in your organisation." with two options: "The person indicated above" (selected) and "The person indicated below (specify)". The "person indicated below" section has fields for "Name:", "Phone number:", and "E-mail address:". A red arrow points to the "Update" button at the bottom right of the form.

https://eolf.osim.ro/olf/enrol/

Oficiul de Stat pentru Invenții și Mărci, România  
State Office for Inventions and Trademarks, Romania

Status of your certificate (Daniel Mirsu 18213)

The registered certificate is valid from 04-05-2020 03:00 to 05-05-2025 02:59  
Production filings allowed: Yes  
Demo filings allowed: Yes

User Details

First name:   
Last name:

Contact Details

E-mail address:

Update

Dupa ce completati formularul cu datele dumneavoastra apasati click pe update.

**Pentru browserul Mozilla Firefox**, se utilizeaza pasii de mai jos:

Se deschide browserul Mozilla Firefox, apoi click pe Options, Privacy & Security, Security Devices - pe care il gasiti jost de tot in dreapta, apoi click pe Load si la Module Name scrieti: Crypto PKCS#11 Module

Apoi la Module filename dati click pe browse si alegeti calea in functie de arhitectura sistemului de operare

Arhitectură pe 64 biti: C:\Program Files\Gemalto\Classic Client\BIN si dati click pe gclib.dll apoi open.

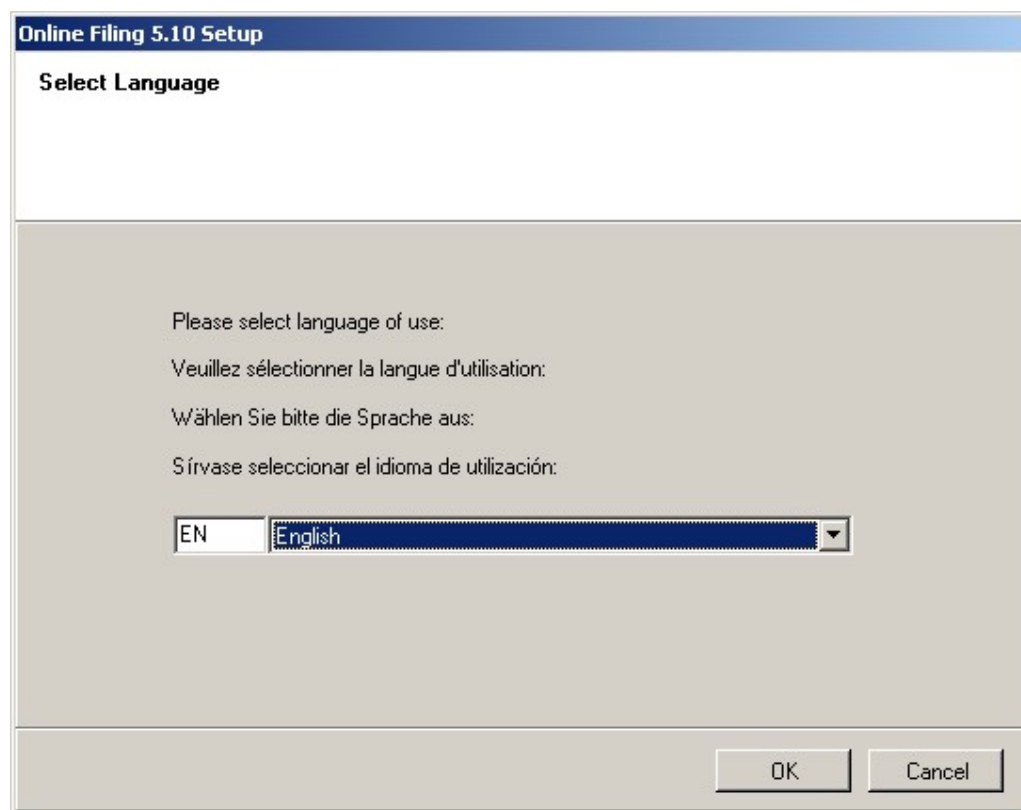

Arhitectură pe 32 biti: C:\Program Files (x86)\Gemalto\Classic Client\BIN click pe gclib.dll apoi open.

Pentru depunerea electronica online, trebuie sa folositi programul Online Filing, pe care il puteti descarca de la adresa:

<https://www.epo.org/applying/online-services/online-filing/download.html>

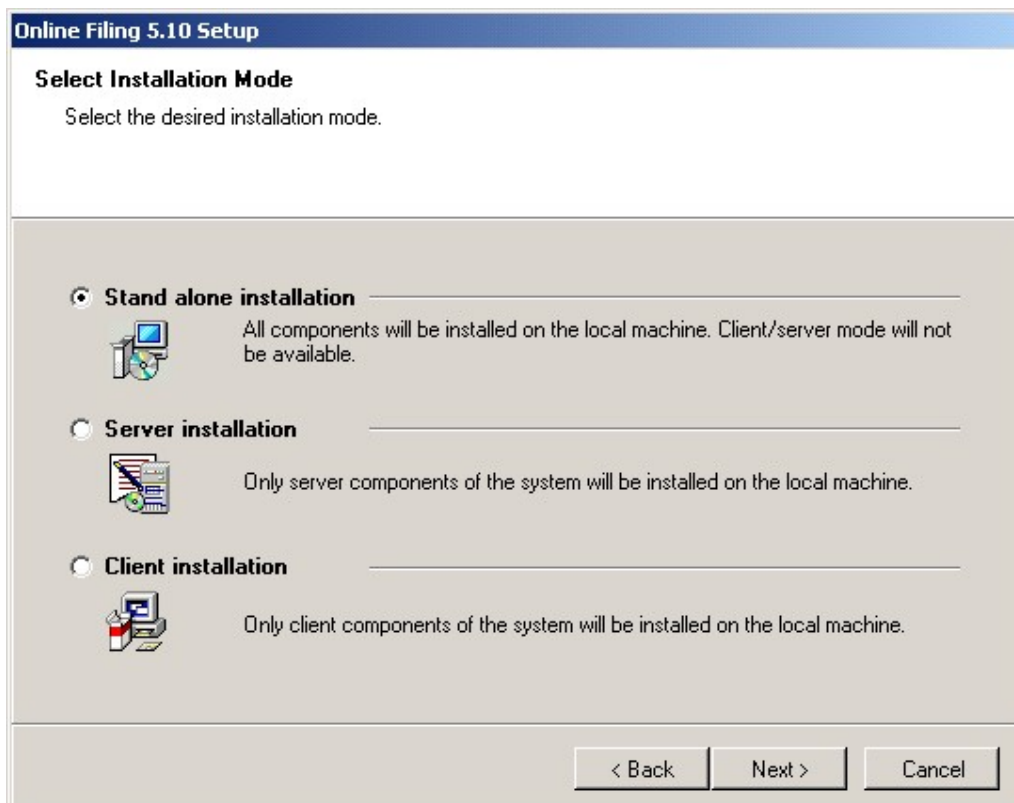

(alegeti link-ul de download de la programul: 5.12 Full package for installation of Online Filing (OLF) V5.12 (build 5.0.12.176 ) (stand-alone and/or server and thin client) **(incorporates updates up to 20 April 2020)** din data 8.7.2020 - 337 MB. **Sau unul mai recent, daca exista.**

Se alege limba preferata (recomandat English) - click pe ok
